**Blighted Property Review Committee**  
**Thursday, September 14, 2023**  
**Continuation of the August 3<sup>rd</sup> Determination Hearing**  
**Hybrid Meeting**  
**Meeting Report**

The hearing was not called to order due to the lack of a quorum.

**BPRC Attendance:** T. McMahon, C. Miller, P. Rye – in person

**Staff Attendance:** M. Mayfield, H. Scheuring and L. Kelleher – in person

When it was determined that a quorum could not be reached as only three of the seven members are present, Ms. Kelleher, Secretary to the BPRC, announced that the hearing was cancelled. She explained that the board did not wish to continue the hearing until October as the information about the conditions at the properties was collected in late July.

Ms. Kelleher stated that the board decided to schedule a new Determination and Certification hearing on Thursday, November 30, 2024 and Wednesday, January 17, 2025 so more current information could be considered, which will provide property owners with additional time to address the conditions at their properties. She explained that those who own properties that still meet the blighted criteria will receive new hearing notices.

*Respectfully submitted by Linda A. Kelleher CMC, Secretary*
