NOTICE

Proposer Questions and City Answers

1. Are hydrogen sulfide odors in the lift stations and force mains the main concern?
Hydrogen Sulfide is one concern, I would say the main concern is Fats, Oil, and Grease.

2. How many manhole cover are there between the force main and the second pumping station?

I don't know how many manholes are between 19th Ward P.S. and 6th and Canal P.S.

3. Can you provide a map that shows the layout of the system.

We may be able to come up with a blue print.

This addendum must be signed, attached to, and returned with your proposal to the City of Reading by the time and date indicated ABOVE:

I, HEREBY CERTIFY THAT THE CHANGES COVERED BY THIS ADDENDUM HAVE BEEN TAKEN INTO ACCOUNT.
