## A. Normal retirement benefits.

Such members shall be eligible for a normal retirement of 50% of Average Annual Pay upon having completed 20 years of service and reaching 50 years of age.*

(3) In addition to the pension benefits which are authorized to be paid in accordance with the previous Subsection A(2), each member who may become entitled to pension benefits shall also become entitled to the payment of a service increment in accordance with and subject to the conditions hereinafter set forth:

(a) Service increments shall be the amount obtained by computing the number of whole years a member shall have continued as a paid City employee after having served in the employment of the City for a period of 20 years and multiplying the number of years in excess of 20 by an amount equal to 1/40 of the pension benefit which becomes payable to such member in

accordance with the provisions of this part. The maximum service increment pension shall be \$500 per month.

- B. Members entitled to reduced retirement benefits. Any member who ceases to be employed by the City for any reason prior to completing the minimum required period for continuous service under Subsection C, but after having completed 12 years of full-time service shall be entitled upon retirement to receive benefits in accordance with Subsection C of this section.
- C. Computation of reduced retirement benefits. Should a member of the Police Pension Fund cease to be employed as a full-time employee for any reason prior to completing the minimum period of continuous service requirement, but after completing 12 years of full-time service, the member shall be entitled to cease his or her employment and vest in his or her retirement benefit computed under § 62-405, subject to the following conditions:
- (1) The member must file on a fund-authorized form with the Board Administrator a written notice of his or her intention to vest.
  - (2) The member must include in the notice the date the member intends to terminate his or her service as a full-time employee.

    - (b) The portion of the base retirement due the member shall be determined by applying to the base amount the percentage that his or her years of service actually rendered bears to the years of service which would have been rendered had the member continued to be employed by the Department until his or minimum retirement date.
- D. *Refund of Payments Used to Purchase Intervening Military Service, Non Intervening Military Service and/or Police Service. At the cessation of employment, any member that has purchased service time as permitted under §1-614(1), §1-614(2), §1-614(3) or §1-614.1, may elect to obtain a refund of all or a portion of the payments used to purchase such service time, without interest, rather than receive the benefits, if any, of the additional service time so purchased for purposes of calculating service time under this Police Pension Fund, subject to the following conditions:*
- (1) *The member must file with the Police Pension Fund Association Board written notice of his or her intention to request a refund.*

- (2) *The member must include in the notice the date that the member intends to terminate his or her service as an employee.*
- (3) *The refund will be scheduled for approval at the next suitable Police Pension Board meeting.*
- (4) *The member must include in the written notice the amount of the requested refund. When requesting a partial refund, such members should give notice of their requested refund amount by stating the number of purchased years of service for which they are not requesting a refund. In this case, the remaining funds used to purchase additional service time will be refunded.*
- (5) *The member must include in the written notice a statement acknowledging that by requesting a refund he or she forfeits any benefits, rights or entitlements, if any, associated with the additional service time purchased with the refunded payments and will be treated, for the purposes of this Police Pension Plan, as not having served the time that was purchased with the refunded payments.*
- (6) *All refunds will be subject to tax withholding as required by applicable law. Notwithstanding the foregoing, if any member that has purchased service time as permitted under §1-614(1), §1-614(2), §1-614(3) or § 1-614.1 has previously requested and has received , prior to cessation of employment, a refund of all or a portion of the payments used to purchase such service time, and such refund has not been repaid prior to cessation of employment, the member may not obtain a refund pursuant to this §1-605(4) of any purchases of service time that had previously been refunded.*

**§ 62-406. Right to refund of contribution in lieu of receipt of pension benefit.**

Any member who becomes entitled to pension benefits in accordance with the provisions of § 62-405 may elect to obtain a refund of all his contributions without interest rather than to receive the pension benefits provided for in any of said section. Such election must be made in writing to the Board prior to the date on which the first pension payment is made to the member. *Such refund of contributions shall include all payments used to purchase service time under §1-614(1), §1-614(2), §1-614(3) or §1-614.1, without interest.*

**§ 62-407. Termination of employment of members prior to being entitled to pension benefits.**

Any member who has been in the service of the City for a period of less than 20 years and whose service shall terminate prior to his or her spouse or children becoming eligible for a pension shall be paid the total amount of the contributions paid into the fund by him and without interest, except as provided in § 62-405C.

**§ 62-408. Permanent disability pension.**

Any member who becomes totally disabled as a result of injury or illness in the line of duty or, if not in the line of duty, after he shall have completed 10 years of service, shall be entitled to full pension benefits during such disability. Any member who becomes totally disabled not as a result of injury or illness in the line of duty and shall not have completed 10 years of service shall be entitled to a pension of 1/2 (50%) of the full pension to which he would otherwise be entitled. Proof of such disability shall consist of the sworn statement of three practicing physicians, designated by the Board, that the member is in a condition of health which totally disables him from performing the duties of his position or office or of any other gainful employment within the police force of the City to which he may be assigned. Any such member receiving pension benefits shall thereafter be subject to physical examination at any reasonable time or times, upon order of the Board, and upon his failure to submit to any such examination, his pension shall cease. *Effective January 1, 1999, all police officers hired on or after January 1, 1977, who are injured in the performance of their duties and due to that injury are unable to perform the duties of a Reading Police Officer, shall be entitled to the same pension benefits as those officers hired prior to January 1, 1977.*

**§ 62-409. Widow or widowers and children of members.**

The widow or widower of a member who has retired on pension hereunder, or if not retired has completed 10 years of service, shall be entitled to full pension benefits. The widow or widower of a member who has not completed 10 years of service shall be entitled to a pension benefit of 1/2 (50%) of the full pension. However, the widow or widower of a member who has been killed in service, regardless of his or her years of service shall be entitled to receive full pension benefits. Such pension shall be payable so long as such widowed or widower survives and upon the death of the widow or widower such pension shall be divided equally among the children of the member under the age of 18 years. Such pension shall cease on the later date of:

- A. The death of the widow or widower.
- B. The 18th birthday of the youngest child.

*Notwithstanding the foregoing, effective January 1, 2004, the survivor's benefit as a result of a killed-in-service benefit shall be equal to the pension that the member would have received had he been retired at the time of his death.*

**§ 62-410. Computation of time of service.**

- A. Except as set forth in Subsection B of this section, the period of service used to determine whether a member is eligible for pension benefits under the provisions of this part shall be computed from the date on which a person becomes a member of the Police Pension Fund. If, after becoming a member, a person leaves the service of the City and is subsequently re-employed, for purposes of determining eligibility for benefits, his time of service shall be computed from the date on which he last became a member of the fund.
- B. A member who terminates his service in the police force of the City and has been re-employed as a member of the police force shall be entitled to credit for prior service in determining his eligibility for pension benefits under the following circumstances:
  - (1) Such member shall be entitled to a credit for prior service if he has repaid to the fund any contributions which he withdrew from the fund upon leaving the service of the City. The extent of prior service for which such member shall be entitled to a credit shall be based on the length of time during which such member originally paid the contributions which he withdrew and which he repaid.

**§ 62-411. Receipt of contributions; payment from and investment of fund.**

- A. It shall be the exclusive duty of the Board to serve as fund trustees and to receive, disburse, retain, invest and reinvest the fund created by virtue of this part and to pay over by warrant or check the amount due under this plan to members or their widows or widowers or their estates or children. The Board, with the approval of the Administrative Services Director of the City, may enter into agreements with reputable institutions to perform any of the aforesaid duties, including, but not limited to, advising the Board with respect to any and all of its duties, but in the event the Board does so, any such agreement shall require the institutions involved to provide the Board with written reports concerning its activities at least once every six months. The compensation of such institutions shall be paid by the fund or such source of pay as is designated by applicable law. The fund shall be used for the exclusive purpose of funding and paying benefits provided hereunder, and a reversion of fund assets or a return of City contributions is prohibited, except as otherwise provided by applicable law or IRS Revenue Ruling 91-4.
- B. The City shall contribute to the fund an amount sufficient to meet the requirements of the fund but such amount shall not be less than Subsection B(1), nor more than Subsection B(2).
- (1) An amount equal to 1/2% of all City taxes levied by the City, other than taxes levied to pay interest on or to extinguish the debt of the City or any part thereof, plus such additional amounts as are actuarially necessary to provide for the cost of pensions paid to widows, widowers and children of members.
  - (2) An amount equal to 3% of all City taxes levied by the City other than taxes levied to pay interest on or to extinguish the debt of the City or any part thereof, plus such additional amounts as are actuarially necessary to provide for the cost of pensions paid to widows, widowers and children of members.
  - (3) The City may take by gift, grant, devise or bequest any money or property, real, personal or mixed, for the benefit of this fund. The Board shall enter into such agreements for the care, management and disposal of such funds, in a manner consistent with the directions of the respective donors.
- C. Effective January 1, 2007, notwithstanding anything the contrary provided herein, the City shall guarantee placement of funds to make the current police pension solvent to accommodate the increase in benefit. Said fund amount shall be determined and agreed upon by both the City and FOP.

**§ 62-412. Exemption from attachment or execution; nonassignability.**

The pension benefits and service increments herein provided for shall not be subject to attachment or execution, assignment or transfer and shall be payable only to the person designated by this part.

**§ 62-413. Payment to estate.**

In the event that any member dies prior to becoming entitled to any pension benefits hereunder, and leaves no widow or widower or children eligible for benefits hereunder, the member's

- (1) He receives an honorable discharge, certificate of satisfactory service or the equivalent thereof, and produces same to the Board.
  - (2) He is re-employed by the City within 90 days of such discharge or within such longer period as his re-employment rights are protected by law.
  - (3) He shall pay into the fund the amount which he would have been obligated to pay during the period of his military service, but not to exceed a total of five years, if he had been an active employee of the City, which amount shall be based on his salary or wages as a City employee immediately before his departure for active military service.

- C. USERRA and HEART requirements. Effective December 12, 1994, any member who is absent on account of qualified military service and returns to City service within the period of

time during which his reemployment rights are protected by federal law shall receive service credit, contributions, benefits and other rights provided under this subsection in lieu of the service credit, contributions, benefits or other rights to which the member would otherwise be entitled under this section, except to the extent the member would be entitled to more advantageous service credit, contributions, or benefits or more valuable rights under other provisions of this section. A member described in this subsection shall be credited with years of service for the full period of qualified military service, provided such member pays into the fund an amount equal to the contributions such member would have been required to make but for his absence on account of qualified military service, within the five-year period of time beginning on his reemployment date (or the lesser period of time beginning on such reemployment date that is three times the length of his qualified military service), and the City shall make all contributions that would have been due on account of such member contributions, and the member shall be entitled to all other rights and benefits accruing on account of such contributions and service. For purposes of this subsection, a member shall be treated as having received compensation during his qualified military service based on the rate of compensation the member would have received but for his qualified military service compensation, or if such amount is not reasonably certain, his average compensation during the twelve-month period immediately preceding his qualified military service (or, if shorter, the period of time immediately preceding his qualified military service). This subsection shall be applied in a manner consistent with Section 414(u) of the Code.

- (1) Effective January 1, 2007, in the case of a member who dies while performing qualified military service, the member's surviving beneficiary shall be entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided herein as though the member had resumed employment with the City on the day before death and then terminated employment on account of death in accordance with Section 401(a)(37) of the Code.
- (2) Effective with respect to years beginning after December 31, 2008, for purposes of applying the limits on annual benefits and contributions and for purposes of applying other applicable provisions of the Code, but not for purposes of determining benefits and contributions, "compensation" shall also include differential wage payments, as defined in Section 3401(h) of the Code, paid by the City to an employee on account of qualified military service.

#### **§ 62-415. Police service.**

Any member who has not retired shall be entitled to have full credit (consistent with the military service purchase rules in §62-414) for each year or fraction thereof, to the completed month, not to exceed five years under the following conditions:

- A. He shall pay the buyback rate set forth in § 62-414B(1) based upon his first year of hire.
- B. Buyback may be made at any time prior to retirement (installment payment plans shall be allowed and implemented) but current retirement standards shall apply.

*Members hired after December 31, 2011 may not purchase police service credit.*

#### **§ 62-416. Increases in allowances following retirement.**

- A. On and after the effective date of this section, pension benefits shall be increased to those members who have previously retired only upon the action of the City Council and only if the funded status of the fund is such that a sufficient provision is made to provide for the accrual of normal cost of future service benefits and of interest on unfunded accrued liabilities.

- B. The fund shall pay a member a special ad hoc postretirement adjustment if all of the following apply:
- (1) The retiree has terminated active employment with the City as a member.
  - (2) The retiree is receiving a retirement benefit from the City on the basis of active employment with the City as a police officer.
  - (3) The retiree began receiving the pension benefit before January 1, 1996.
- C. Except as provided in Subsections D and E, the fund shall pay a member a monthly special ad hoc postretirement adjustment under this section that shall be calculated as follows:
- (1) The base adjustment shall be determined by multiplying 15 cents by the years of service and then multiplying that product by the years on retirement.
  - (2) The longevity factor shall be determined as the sum of the products calculated by multiplying 0.025 by the years on retirement and 0.05 by the years on retirement in excess of 25, if any.
  - (3) The longevity adjustment shall be determined by multiplying the base adjustment calculated under Subsection C(1) by the longevity factor calculated under Subsection C(2).
  - (4) The special ad hoc postretirement adjustment payable under this section shall be the sum of the base adjustment calculated under Subsection C(1) and the longevity adjustment calculated under Subsection C(3).
- D. Limitation. If a retiree is entitled to be paid a special ad hoc postretirement adjustment by more than one municipal retirement system, the amount of the special ad hoc postretirement adjustment under Subsection C shall be reduced before such payments commence so that the total of all these adjustments paid to the retiree does not exceed the amount specified in Subsection C.
- E. Modification in the amount of 2002 special ad hoc postretirement adjustment. The amount of the special ad hoc postretirement adjustment calculated under Subsection C shall be reduced annually by 65% of the total amount of any postretirement adjustments provided to the retiree under any other City pension plan after December 31, 1988, and before January 1, 2002, and paid in the immediately preceding year.
- F. The special ad hoc postretirement adjustment under this section is effective on the date of the first pension benefit payment issued after June 30, 2002. If the special ad hoc postretirement adjustment under this section is not commenced in the initial retirement benefit payment occurring after June 30, 2002, the special ad hoc postretirement adjustment shall be included as soon as practicable in the pension benefit payment of the retiree, and the initial pension benefit payment that includes the special ad hoc postretirement adjustment also shall include the total amount of the special ad hoc postretirement adjustments previously omitted from the pension benefit payments made after June 30, 2002.

**§ 62-417. Deferred Retirement Option Program (DROP).**

- A. Eligibility. Effective January 1, 2001, members of the Reading Police Department, who have not retired prior to the implementation of the DROP program may enter into the DROP on the first day of any month following completion of 20 years of credited service. *Members of the Reading Police Department hired after December 31, 2011 shall not be eligible for or permitted to participate in the DROP program.*
- 62:63
- Supp. #10, 2/14
- B. Written election. An eligible member electing to participate in the DROP must complete and execute a "DROP option form" prepared by the City of Reading, Administrative Services Department, which shall evidence the member's participation in the DROP. The form must be

signed by the member and notarized and submitted to the City of Reading, Administrative Services Department, prior to the date on which the member wishes the DROP option to be effective. The DROP option form shall include an irrevocable notice to the City, by the member, that the member shall resign from employment with the City of Reading Police Department effective on a specific date not more than 60 months from the effective date of the DROP option. In addition, and consistent with the member's resignation date, all retirement documents required by the Board Administrator must be filed and presented to the Board for approval of retirement and payment of pension. Once a retirement application has been approved by the Board it is irrevocable.

- C. Limitation on pension accrual. After the effective date of the DROP option, the member shall no longer earn or accrue additional years of continuous service nor will the member's compensation change for pension purposes.
- D. Benefit calculation. For all retirement fund purposes, continuous service of a member participating in the DROP shall remain as it existed on the effective date of commencement of participation in the DROP. Service thereafter shall not be recognized or used for the calculation or determination of any benefits payable by the fund. The average monthly pay of the member for pension calculation purposes shall remain as it existed on the effective date of commencement of participation in the DROP. Earnings or increases in earnings thereafter shall not be recognized or used for the calculation or determination of any benefits payable by the Pension Fund. The pension benefit payable to the member shall increase only as a result of cost-of-living adjustments in effect on the effective date of the member's participation in the DROP, or by applicable cost-of-living adjustments granted thereafter. *During the period the member participates in the DROP, such member shall contribute to the fund an amount equal to 5% of his salary or wages per month. However, members who made an election to participate in the DROP prior to January 1, 2012 shall not be required to make mandatory contributions to the fund during the period such members participate in the DROP.*
- E. Payments to DROP account. The monthly retirement benefits that would have been payable had the member elected to cease employment and receive a normal retirement benefit shall, upon the member commencing participation in the DROP, be paid into a separate DROP account established to receive the member's monthly pension payments. Such DROP account shall be credited with interest in a manner prescribed by the Board.
- F. Payout. Upon the termination date set forth in the member's drop option form, or such date as the member withdraws or is terminated from the DROP program, the retirement benefits payable to the member or the member's beneficiary, if applicable, shall be paid to the member or beneficiary and shall no longer be paid to the member's deferred retirement option account. Within 30 days following termination of a member's employment pursuant to their participating in the DROP program, the balances in the member's deferred retirement option account shall be paid to the member in a single lump sum payment, or at the member's option, in any fashion permitted by law.
- G. Disability During DROP. If a member becomes temporarily disabled during his participation in DROP, his participation freezes and the time period while on disability does not count towards the five-year participation limit. Upon return to duty, membership in DROP shall resume, continuing with the remaining time left in the five-year membership period. The member shall receive disability pay in the same amount as a disabled member who is not participating in DROP. In no event shall a member on temporary disability have the ability to draw from his DROP account. However, notwithstanding any other provisions in this subsection, if an officer is disabled and has not returned to work as of the date of his required resignation, then such resignation shall take precedence over all other provisions herein and said officer shall be required to resign.
- H. Death. If a DROP member dies before the DROP account balance is paid, the member's legal beneficiary shall have the same rights as the member to withdraw the account balance.

- I. The DROP shall not be available to an elected official, except for an official first elected prior to September 18, 2009.
- J. Amendment. ~~Except as may be required by applicable law, any amendments to this § 62-417 shall be consistent with the provisions covering deferred retirement option plans set forth in any applicable collective bargaining agreement and shall be binding upon all future DROP members and upon all DROP members who have balances in their deferred retirement option accounts. Except as may be required by applicable law, or otherwise noted in the Plan, any amendments to this Section 1-616 shall be consistent with the provisions covering deferred retirement options plans set forth in any applicable collective bargaining agreement and shall be binding upon all future DROP members and upon all DROP members who have balances in their deferred retirement option accounts.~~

**§ 62-418. Direct rollovers.**

- A. Direct rollovers. Notwithstanding any provision herein to the contrary that would otherwise limit a distributee's election under this subsection, on and after January 1, 1993, a distributee may elect, at the time and in the manner prescribed by the Board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.
- B. For purposes of this section, the following definitions shall apply:

**DIRECT ROLLOVER**--A direct rollover is a payment by the system to the eligible retirement plan specified by the distributee.

**DISTRIBUTEES** — — A distributee includes any member. In addition, a member's surviving spouse and the member's spouse or former spouse who is the alternate payee under a domestic relations order, as defined in Section 414(p) of the Code, are distributees with regard to the interest of the spouse or former spouse. Effective with respect to distributions after 2009, a distributee also means a beneficiary of a member other than a surviving spouse.

**ELIGIBLE RETIREMENT PLAN** — — An eligible retirement plan is an individual retirement account described in Code Section 408(a), an individual retirement annuity described in Code Section 408(b), a Roth IRA as pursuant to Code Section 408A(e), for distributions made after December 31, 2001, an annuity plan described in Code Section 403(a) or an annuity contract described in Code Section 403(b), a qualified trust described in Code Section 401(a), or for distributions made after December 31, 2001, an eligible plan under Code Section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this plan. The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a domestic relation order, as defined in Code Section 414(p). Effective in the case of an eligible rollover distribution to a surviving spouse before 2002 or to a beneficiary other than a surviving spouse after 2009, an eligible retirement plan is an individual retirement account or individual retirement annuity.

**ELIGIBLE ROLLOVER DISTRIBUTION**--An eligible rollover distribution is any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of 10 years or more; any distribution to the extent such distribution is required under Code Section 401(a)(9); the portion of any distribution that is not includible in gross income (determined without regard to the exclusion for net unrealized appreciation with respect to employer securities); and any distribution that is made upon hardship of a member. Notwithstanding anything in this definition to the contrary, for distributions made after December 31, 2001, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income. However, such portion may be paid only to an individual retirement account or annuity, or to a qualified defined contribution described in Section 401(a) or 403(a) of the Code, or a governmental 457 plan that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not.

**§ 62-419. Maximum permissible benefits and contributions- Code Section 415.**

- A. In general. Notwithstanding anything herein to the contrary, effective for limitation years beginning on or after January 1, 1995, the annual benefit (attributable to City contributions and pickup contributions treated as City contributions) with respect to a member payable under the plan and all other defined benefit plans of the City, when expressed in the form of a straight life annuity, shall not exceed the "maximum permissible benefit." Effective for limitation years beginning on or after January 1, 2008, in no case shall any amount accrue in a limitation year, with respect to a member under the plan or all other deferred benefits plans of the City, that would exceed the maximum permissible benefit. For purposes of this section, the member's maximum permissible benefit shall equal the dollar limit prescribed in Section 415(b)(1)(A) of the Code (\$195,000 in 2011) or such other amount as may be prescribed under regulations issued by the U.S. Secretary of the Treasury under Section 415(d) of the Code, adjusted in accordance with Subsection B, C

and D, below. In addition, the "annual additions," as defined in Section 415(c)(2) of the Code, including payments to a member's DROP account, made by or on behalf of any member attributable to member contributions to the plan other than pickup contributions treated as City contributions, together with any annual additions, to any Code Section 401(a) qualified defined contribution plan maintained by the City shall not exceed the maximum amount determined under Section 415(c)(1) of the Code for any limitation year, as adjusted under Section 415(d) of the Code and applicable guidance. Solely for purposes of determining the maximum annual addition prescribed in Section 415(c) of the Code, compensation means a member's wages as defined in Section 3401(a) of the Code and all other payments of compensation to the member from the City for which the City is required to furnish the member a written statement under Sections 6041(d) and 6051(a)(3) of the Code. Compensation shall be determined without regard to any rules that limit the compensation included in wages based on the nature or location of the employment or the services performed. Compensation shall include any amount which would otherwise be deemed compensation under this definition but for the fact that it is subject to a salary reduction agreement under any plan described in Section 457(b), 132(f), or 125 of the Code. Solely for this purpose, compensation also includes regular compensation received after such member's severance from employment [as defined in Treas. Reg. § 1.415(a)-1(f)(5) (but not severance payments)]; provided that payment of such compensation is made by the later of 2 1/2 months after the member's severance from employment or the end of the calendar year that includes the member's severance from employment; and provided, further, that in order for these postseverance payments to be considered compensation for this purpose, these amounts may only consist of the following (which would otherwise constitute compensation): i) regular compensation for **services during the member's regular working hours, or compensation for service outside the member's regular work hours** (such as overtime or shift differential), commission, bonuses, or similar payments, if such payment would have been paid to the member prior to severance from employment if the member had continued in employment with the City; ii) payment for unused, accrued, bona fide sick, vacation or other leave (but only if the member would have been able to use the leave if employment had continued); and iii) for plan years beginning on or after January 1, 2009, payments to members who do not currently perform services for the City by reason of qualified military service [as that term is defined in section 414(u)(1) of the Code] to the extent those payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the City rather than entering qualified military service. Other types of payments paid to the member after severance from employment shall not be considered compensation for this purpose, even if paid within the time frame described above. In no event, however, shall compensation for this purpose include any amounts not permitted to be included under Section 415 of the Code.

- B. Adjustment to the maximum permissible benefit. Adjustments shall be made to the maximum permissible benefit in accordance with Subsection B(1), (2) or (3) below:
- (1) If a member's benefit is payable in any form other than a straight life annuity, the determination as to whether the limitation of this section has been satisfied shall be made by adjusting such benefit to the form of a straight life annuity beginning when the payment of benefits begins. The adjustment described in the preceding sentence shall be made in the manner prescribed by the U.S. Secretary of the Treasury, such that the equivalent annual benefit would be the greater of: 1) the equivalent annual benefit computed using 7% interest rate and GAM83 mortality table; and

2) the equivalent annual benefit computed using an interest assumption of 5% (for distributions made during plan years beginning in 2004 or 2005, 5.5%) and the mortality table prescribed by the U.S. Secretary of the Treasury under Section 415(b)(2)(E)(v) of the Code. Notwithstanding the preceding sentence, effective for plan years beginning after 2005, for purposes of determining whether any benefit payable as a lump sum satisfies the limitation of this section, the adjustment described in the preceding sentence shall be made in the manner prescribed by the U.S. Secretary of the Treasury, such that the equivalent annual benefit would be the greatest of: 1) the equivalent annual benefit computed using the interest rate and mortality table specified in the plan for actuarial equivalence for the particular form of benefit payable; 2) the equivalent annual benefit computed using an interest rate assumption of 5.5% and the mortality table prescribed by the U.S. Secretary of the Treasury under Section 415(b)(2)(E)(v) of the Code; and 3) the equivalent annual benefit computed using the interest rate specified in Section 417(e)(3) of the Code and the mortality table prescribed by the U.S. Secretary of the Treasury under Section 415(b)(2)(E)(v) of the Code divided by 1.05. However, for the purposes of such adjustment, any ancillary benefit that is not directly related to retirement income benefits and that portion of any joint and survivor annuity that is actuarially equivalent to the default form of payment benefit payable to a married member shall not be taken into account.

(2) Actuarial equivalent prior to age 62.

(a) If the benefit of a member who is not a "qualified participant," as defined in Section 415(b)(2)(H) of the Code, begins before he or she reaches age 62 (other than on account of becoming disabled by reason of personal injuries or sickness or death), the maximum permissible benefit shall be adjusted in accordance with Section 415(b) of the Code, to an amount (beginning when the payment of benefits begins) that is actuarially equivalent to an annual benefit equal to the maximum permissible benefit determined under Subsection A [adjusted through the limitation year when payment of benefits begins for increases in the cost of living in accordance with Section 415(d) of the Code] beginning at age 62.

[1] For limitation years beginning before July 1, 2007, the defined benefit dollar limitation applicable at an age prior to age 62 is determined as the lesser of: a) the actuarial equivalent (at such age) of the defined benefit dollar limitation computed using a five-percent interest rate and the Unisex UP-84 Mortality Table; and b) the actuarial equivalent (at such age) of the maximum permissible benefit computed using a five-percent interest rate and the applicable mortality table prescribed by the U.S. Secretary of the Treasury under Section 415(b)(2)(E)(v) of the Code.

[2] For limitation years beginning on or after July 1, 2007, the defined benefit dollar limitation applicable at an age prior to age 62 is determined as the lesser of: a) the actuarial equivalent (at such age) of the defined benefit dollar limitation computed using a five-percent interest rate and the applicable mortality table within the meaning of Section 417(e)(3)(B) of the Code (and expressing the member's age based on completed calendar months as of the annuity starting date); and b) the defined benefit dollar limitation multiplied by the ratio of the annual amount of the immediately commencing straight life annuity under the plan at the member's annuity

starting date to the annual amount of the immediately commencing straight life annuity under the plan at age 62 both determined without applying the limitations of Section 415 of the Code.

- [3] For limitation years beginning prior to 2002, the reduction shall not reduce the maximum permissible benefit below \$75,000 if the benefit begins at or after age 55, or, if the benefit begins before age 55, the equivalent of the \$75,000 limit for age 55.
- (b) Any decrease in the maximum permissible benefit made in accordance with this subsection shall not reflect a mortality decrement.
- (3) Actuarial equivalent after age 65.
- (a) If the benefit of a member begins after he or she reaches age 65, the maximum permissible benefit of Subsection A shall be increased in accordance with Section 415(b) of the Code and the regulations thereunder to an amount (beginning when the payment of benefits begins) that is actuarially equivalent to an annual benefit equal to the maximum permissible benefit of Subsection A [adjusted through the limitation year when payment of benefits begins for increases in the cost of living in accordance with Section 415(d) of the Code] beginning at age 65.
- [1] For limitation years beginning before July 1, 2007, the actuarial equivalent of the maximum permissible benefit applicable at an age after age 65 is the lesser of: a) the actuarial equivalent (at such age) of the maximum permissible benefit computed using a five-percent interest rate and the unisex UP-84 mortality table; and b) the actuarial equivalent (at such age) of the maximum permissible benefit computed using a five-percent interest rate assumption and the applicable mortality table prescribed by the U.S. Secretary of the Treasury under Section 415(b)(2)(E)(v) of the Code.
- [2] For limitation years beginning on or after July 1, 2007, the actuarial equivalent of the maximum permissible benefit applicable at an age after age 65 is the lesser of: a) the actuarial equivalent (at such age) of the maximum permissible benefit using a five-percent interest rate and the applicable mortality table within the meaning of Section 417(e)(3)(B) of the Code (and expressing, the member's age based on completed calendar months as of the annuity starting date); and b) the maximum permissible benefit multiplied by the ratio of the annual amount of the immediately commencing straight life annuity payable to the member, computed disregarding the member's accruals after age 65, but including any actuarial adjustments even if those adjustments are applied to offset accruals, to the annual amount of the straight life annuity that would be payable under the plan to a hypothetical member who is 65 years old and has the same accrued benefit (with no actuarial increases for commencement after age 65 as the member receiving the distribution (determined disregarding the member's accruals after age 65 and without applying the rules of Section 415 of the Code.
- (b) For purposes of both Subsection B(3)(a)[1] and [2] above, mortality between age 65 and the annuity starting date shall be ignored.

- C. Lowest limitation of maximum permissible benefit. Except as provided in Subsection D hereof, the maximum permissible benefit shall never be deemed to be an amount which is less than \$10,000, provided the member is not, and has never been, a member in any Code Section 401(a) qualified defined contribution plan of the employer.
- D. Maximum permissible benefit applicable to certain members who have less than 10 years of participation service with the City. The maximum permissible benefit applicable to any member, other than a retiree receiving disability benefits by reasons of personal injuries or sickness or beneficiaries, survivors, or the estate of a member, who has less than 10 years of participation service with the City shall be equal to the lesser of the maximum permissible benefit or \$10,000 multiplied by a fraction, the numerator of which is the number of the member's years (or part thereof) of participation service in the plan as of and including the current limitation year, and the denominator of which is 10.
- E. Limitation of accrued benefit if annual benefit exceeds maximum permissible benefit. If the member's annual benefit exceeds the maximum permissible benefit after the application of the appropriate factors, such member's accrued benefit shall be limited to an amount which produces an annual benefit equal to the maximum permissible benefit, adjusted, where applicable, as set forth in this section.
- F. For purposes of this section, "participation service" means an accrual computation period for which the following conditions are met: A) the member is credited with at least the period of service for benefit accrual purposes, required hereunder in order to accrue a benefit for the accrual computation period; and B) the member is included in the plan for at least one day of the accrual computation period. If these two conditions are met, participation service credited to the member hereunder shall equal the amount of benefit accrual service credited to the member for such accrual computation period.

**§ 62-420. Required minimum distributions- Code Section 401(a)(9).**

Notwithstanding any other provision herein, beginning after 1986, any and all benefit distributions made under the plan on or after shall be made in accordance with a reasonable and good faith interpretation of Section 401 (a)(9) of the Code, including the incidental death benefit requirements of Section 401 (a)(9). In accordance with this requirement, the following rules shall apply:

- A. Distributions that begin during the member's lifetime shall begin no later than April 1 following the calendar year in which the member retires or the calendar year in which the member attains age 70 1/2 and be distributed over the life of the member or the joint lives of the member and his beneficiary (or over a period not extending beyond the life expectancy of the member or the joint life expectancy of the member and his beneficiary).
- B. If a member dies before his entire interest has been distributed, the remaining portion shall be distributed at least as rapidly as under the method of distribution being used as of the date of the member's death.
- C. If the member dies before receiving any distributions from the plan and A) the death benefit is payable to his surviving spouse, such death benefit shall be distributed over a period not exceeding such spouse's life (or life expectancy) beginning no later than: 1) December 31 of the calendar year immediately following the calendar year in which the member died;

or 2) December 31 of the calendar year in which the member would have attained age 70 1/2; B) the death benefit is payable to a designated beneficiary other than the member's surviving spouse, such death benefit shall be distributed to such beneficiary over a period not exceeding the beneficiary's life (or life expectancy) beginning no later than December 31 of the calendar year following the member's death; and C) if the death benefit is not payable to the member's surviving spouse or designated beneficiary, the member's entire interest will be paid no later than December 31 of the calendar year which includes the fifth anniversary of the member's date of death.

**§ 62-421. Miscellaneous.**

The plan is a governmental plan as defined in Section 414(d) of the Code and Section 3(32) of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, and as such is exempt from the requirements of ERISA and those requirements of the Code from which a governmental plan is specifically exempt.~~ *The plan and fund are governed by the Third Class City Code of Pennsylvania.
