

FACTORS TO CONSIDER IN WATER DELIBERATIONS

Following is a list of factors which will no doubt be considered in our deliberations on how best to leverage the value of our assets in the water system. You are being asked to assign a numerical weight to each factor that reflects your opinion as to the importance each factor should be given in arriving at your decision.

Each factor will be weighted on a scale of 1 through 5 as follows:

1. little or no importance
2. some importance
3. important
4. very important
5. critical importance

Please circle one number for each of the following factors.

a. Impact on suburban customers	1	2	3	4	5
b. long term financial stability for the city	1	2	3	4	5
c. impact on city residents and taxpayers	1	2	3	4	5
d. avoiding default and receivership	1	2	3	4	5
e. short term financial stability	1	2	3	4	5
f. control over water rates	1	2	3	4	5
g. maintenance of the system	1	2	3	4	5
h. impact on RAWA employees	1	2	3	4	5
i. ownership of the system	1	2	3	4	5
j. amount of money paid to the city	1	2	3	4	5
k. exiting Act 47 oversight	1	2	3	4	5
l. impact on residents and taxpayers	1	2	3	4	5
m. large upfront payment	1	2	3	4	5
n. how the proceeds are used	1	2	3	4	5
